Subject: RE: Presentation material for today

I don't think we should give him. If he wants, he should get it through SETE.

Rgds,

KC

KC,
The China Investor from Sete Brasil is asking for the soft copy of BrasFELS presentation material as evidence to prove BrasFELS capacity and capability for the construction of drilling rigs for Sete Brasil.

shall we sent him this info.

Thanks.

Regards
TT

Dear Mr. Low

Thank you for hosting the due diligence trip in BrasFELS today, I certainly enjoyed time in the shipyard.

Regarding the presentation materials, it would be great if you could send me the soft-copy of the presentation. Because in the presentation you have shown us the overview of P-56 working process, which you have managed to deliver the work earlier with higher local content achievement and reasonable cost. This is a good evidence to prove BrasFELS capacity.

Also, the presentation material provides the overview of BrasFELS operating capacity with the most updated figures and events (best project team award in 2011).

Due to the concern about the inconsistency, I think this presentation was focusing on the overview and operational aspects of BrasFELS, not on the Sete semi-sub project in particular. It will help me to obtain a clearer high level overview of the BrasFELS. Please let me know whether it is possible to have this soft copy.

Once again, thank you for this trip, it was impressive.

Best Regards,
Xiao Tong
